

By submitting a booking form or utilizing equipment provided by White's Dumpster Rental ("Company"), the customer ("Renter") agrees to all terms, pricing structures, and operational conditions outlined below.

1. Rental Period & Rental Fees

- **Base Rental Fee:** The base fee covers equipment drop-off, a standard **7-day rental period**, and final equipment retrieval.
 - 15-yard dumpster = \$300 rental fee
- **Extension Requests:** If equipment is required beyond the standard 7-day period, Renter must notify the Company prior to the scheduled pick-up date. Additional daily rates may apply.
- **Waste Disposal Fee (Tonnage):** In addition to the base rental fee, Renter agrees to pay the exact waste disposal fee assessed by the local transfer station upon emptying the container. Transfer station weight receipts are available upon request.

2. Material Guidelines & Restrictions

To ensure safety and compliance with local environmental laws and transfer station regulations, Renter agrees to strictly abide by the following loading rules:

- **Prohibited Hazardous Materials:** Renter shall **NOT** place any hazardous waste, toxic substances, liquids, chemicals, paints, stains, motor oils, fuels, solvents, automotive batteries, flammable materials, propane tanks, pressurized canisters, or explosives into the dumpster.
- **Special Items:** Tires and appliances containing Freon (refrigerators, freezers, air conditioning units) are strictly prohibited under standard disposal rates.
- **Heavy Materials:** Concrete, brick, block, asphalt, dirt, and sand add weight rapidly. Renter must obtain explicit prior approval from the Company before loading heavy materials to prevent exceeding legal road-weight limits or damaging equipment.
- **Load Limits:** Renter agrees not to fill dumpster beyond capacity (items may not pile higher than the walls of the dumpster)
- **Violation & Penalty Fees:** If prohibited items or unapproved heavy materials are loaded, Renter is responsible for all sorting fees, safety handling costs, and transfer station or environmental penalties incurred.

3. Placement & Property Care

- **Placement Surface:** The Company will make every reasonable effort to place the dumpster in the location requested by the Renter. Renter warrants that the placement surface (driveway, gravel, asphalt, or lawn) is structurally capable of supporting the combined weight of the dumpster, waste contents, and delivery vehicle.

- **Liability Disclaimer:** The Company assumes no responsibility for damage to driveways, sidewalks, lawns, underground utilities, or overhead structures resulting from standard delivery, placement, or retrieval operations.
- **Equipment Care:** Renter assumes responsibility for the care of the dumpster while on their property. Renter shall not move, modify, alter, or overload the container beyond the rim of the dumpster.

4. Final Authorization

Submission of a rental request, acceptance of equipment delivery, or payment of the base rental fee constitutes full agreement to these Terms & Conditions.
